

Universal Tones

Universal Tones range has recently been accredited by the Dementia Services Development Center (DSDC) under the University of Stirling. All 24 colors have been reviewed for their suitability in areas used by people with dementia and rated by DSDC.

The Dementia Services Development Centre at the University of Stirling have undertaken a review of this product and have rated its design in relation to dementia design principles and its usability with a dementia-inclusive environment. For ease of identification, the suitability of the product is classified by number with corresponding explanation of use, within the ratings key provided.

The DSDC Accredited Product logo is awarded on the merit of the individual product and colour-way. This accreditation does not merit the manufacture or final application of the product. Whilst every endeavour has been made to ensure the ratings are reflective of the products suitability and applied use at the time of print, DSDC cannot be held responsible for the application of the final product, its performance or its interface with other products or finishes. For an environment to be considered 'dementia-inclusive' or 'dementia-friendly' careful consideration must be given to the specification of adjoining finishes, their performance specification
